REGENERATIVE MEDICINE & SURGERY

HOW TO BEGIN STEP BY STEP - BEST PRACTICES

FRIDAY, NOVEMBER 10TH, 2023 | CLINIQUE NESSENS - SWITZERLAND

EDITORIAL

Regenerative medicine and surgery have become more democratic over the past few years with the use of products derived from the human body in many specialties. Blood platelets, adipose tissue or bone marrow are reservoirs of growth factors or stem cells with multiple properties and are the subject of a large number of scientific studies in tissue regeneration.

Nevertheless, there remains a great heterogeneity in the methods used to obtain these products, which can be combined with each other or associated with synthetic products in the hope of obtaining more lasting and more visible results. The heterogeneity is not limited to the manufacturing methods but also concerns the scientific literature whose results oscillate between miraculous procedures with regenerative virtues for some and particularly lucrative placebos for others.

The course entitled "Regenerative Medicine & Surgery: How to begin step by step - Best practices" brings together a complementary organizing committee of 4 international experts in the field of regenerative medicine and surgery, allowing both the biological and clinical aspects of this innovative specialty to be explored. It will take place at the prestigious Clinique Nescens in Genolier, near Geneva, which has a center dedicated to aesthetic regenerative medicine directed by Dr Sophie Menkes. The first part of the day will aim to familiarize you with the most commonly used regenerative medicine products and introduce you to the latest innovations in the field, such as the use of exosomes or cryopreserved adipose tissue. The second part of the day will take place in an original format of "almost live surgery" to go into the details of the operating protocols of procedures from preparation to injection!

*The Organizing Committee,
Guy Magalon, Jérémy Magalon, Sophie Menkes & Gianni Soldati*

"Whoever teaches must accurately describe each operative step down to the tiniest detail; we must be obsessed with detail.

Whoever does must strictly follow the indicated technique;

The technique is a liturgy which obliges. Any failure can be a mortal sin"

Dr André Chancholle

Pr Guy Magalon

REGENERATIVE MEDICINE & SURGERY

HOW TO BEGIN STEP BY STEP - BEST PRACTICES

FRIDAY, NOVEMBER 10TH, 2023 | CLINIQUE NESSENS - SWITZERLAND

- 8.15 - 8.45** **Welcome of the participants & Registration**
- 8.45 - 9.00** **Opening by the Organizers & the Clinic Director**

9.00 - 13.00

THEORETICAL PART - TEACHING SESSION

Moderators: Gianni Soldati, Jeremy Magalon

- 9.00 - 9.40** **Adipose tissue harvesting and injection technique.**
From Sydney Coleman to automated harvesting and placement: 20 years of evolution
Preparation and Description of Adipose derived products: Fat, Microfat, Mechanical preparation: Emulsified-Micronized
Guy Magalon
- 9.40 - 10.10** **PRP-Platelet Rich Plasma. How to choose and use a kit. Collection of data**
Jérémy Magalon
- 10.10 - 10.30** **Discussion**
- 10.30 - 11.00** **Coffee & Tea Break with sponsors**
- 11.00 - 11.40** **Preparation of adipose derived mesenchymal stem cells from adipose tissue.**
Application of Good Manufacturing Practice in Cell Therapy Facility Organization, Production, and Quality Control
Gianni Soldati
- 11.40 - 12.00** **Smart combination: Hyaluronic acid Energy based devices – topical washing buffer...**
Sophie Menkes
- 12.00 - 12.30** **Innovations:**
· **Cryopreservation of native adipose tissue**
· **Exosomes**
Gianni Soldati, Jérémy Magalon
- 12.30 - 13.00** **Discussion**
- 13.00 - 14.00** **Lunch**

REGENERATIVE MEDICINE & SURGERY

HOW TO BEGIN STEP BY STEP - BEST PRACTICES

FRIDAY, NOVEMBER 10TH, 2023 | CLINIQUE NESSENS - SWITZERLAND

14.00 - 18.30

ALMOST LIVE SURGERY – PRACTICAL PART

Moderators: Guy Magalon, Sophie Menkes

- 14.00 - 14.20 **Video on PRP preparation
How to choose a kit and follow international
recommandations ?**
Jérémy Magalon
- 14.20 - 14.40 **Video on fat harvesting, microfat**
Sophie Menkes
- 14.40 - 15.00 **Video on Mechanical preparation of fat**
Guy Magalon
- 15.00 - 15.20 **Video on Automatic devices for large volume**
Guy Magalon
- 15.20 - 15.40 **Video on intravenous use of SVF prepared
intra-operatory by the Celution system**
Matthew Feshbach
- 15.40 - 16.00 **Discussion**
- 16.00 - 16.30 **Coffee & Tea Break with sponsors**

16.30 - 18.30

INDICATIONS

Moderators: Jérémy Magalon, Sophie Menkes

- 16.30 - 17.00 **Video on Aesthetic Surgery**
- 17.00 - 17.30 **Video on Alopecia**
- 17.30 - 18.00 **Video on Hand Surgery**
- 18.00 - 18.30 **Video on Gynecology**

18.30 **Final remarks**

REGENERATIVE MEDICINE & SURGERY

HOW TO BEGIN STEP BY STEP - BEST PRACTICES

FRIDAY, NOVEMBER 10TH, 2023 | CLINIQUE NESSENS - SWITZERLAND

REGISTRATION RATES

Early Bird Registration Rate - Until September 30th, 2023

- Junior* Doctor 280€
- Senior Doctor 380€

*Subject to presentation of your student proof

Regular Registration Rate - Starting from October 1st, 2023

- Junior* Doctor 350€
- Senior Doctor 480€

*Subject to presentation of your student proof
